Who We Are

- One of the first family donor foundation dedicated to social development in Egypt

- Founded in April 2001 with an endowment from the Sawiris family

- Granted special Consultative Status at the UN Economic and Social Council (ECOSOC) in 2005.

- Board of Trustees: leaders of the Egyptian society & business sector & experts who volunteer their time and effort to oversee the foundation activities.
Board of Trustees

– Eng. Onsi Sawiris, the founder of Orascom Group, is founder of the Sawiris Foundation and
  Advisor to the Board.

– Amb. Dr. Mohamed I. Shaker, Chairman / Chairman of the Board of the Egyptian Council for
  Foreign Affairs.

– Dr. Ismail Serageldin, Vice-Chairman / Director of the Bibliotheca Alexandrina.

– Eng. Naguib Sawiris, Vice-Chairman / Chair & CEO of Orascom Telecom Holding

– Mrs. Yousriya Loza-Sawiris, Secretary General / Qualified Accountant & Financial Advisor

– Mr. Hazem Hassan, Treasurer / Chair of KPMG, Hazem Hassan Public Accountants & Consultants

– Mr. Nassef Sawiris, Board Member / Director & CEO of Orascom Construction Industries (OCI)

– Eng. Samih Sawiris, Board Member / Chair of Orascom Hotels and Development (OHD)

– Dr. Nadia Makram Ebeid, Board Member / Executive Director of CEDARE

– Me. Mona Zulficar, Board Member / Senior Partner, Shalakany Law Office

– Mrs. Hala Hashem, Board Member / Senior partner, Zaki Hashem and Partners Attorneys at Law

– Mr. Osama Bishai, Board Member / Managing Director of Orascom Construction Industries (OCI)
The Sawiris Foundation aspires to be a recognized pioneer in the support of innovative and sustainable development initiatives promoting increased empowerment of and participation by the people of Egypt.
The Foundation’s mission is to contribute to Egypt’s social development, creating real job opportunities and empowering people to build productive lives and realize their full potential.

The Foundation supports initiatives that encourage job creation through training, quality education, and access to micro-credit. The Foundation also enhances efforts to promote improved health and furthers the endeavors of local communities to gain access to basic infrastructure and services—two important prerequisites for higher productivity.
Our Approach to Sustainable Development

- **Forging Effective Partnerships:**
  - Implementing Partners (Government, Corporate Sector & Civil Society Organizations).
  - Collaborative grant making.

- **Employment Backward Model:**
  - Assessing market needs,
  - Secure jobs
  - - Provide Certified training ,
  - Employ Trainees

- **Fostering Healthy competition:**
  - Job creation competitions.
  - Scholarships competitions
  - Cultural Award competitions.

- **Instituting Best Practices.**

- **Going to Scale**
  - Successful pilot projects are promoted for replication and expansion

Partnerships in Development: 
*Projects’ Highlights*
APE Composting Unit was established at Mokatam in 1984 and moved to Katameya in 1999.

In 2006 the unit was developed with new composting techniques. The current project is funded by 1.5 million L.E.
Composting Unit Objectives:

- Environmental disposal of organic waste (food), the pigs and animals’ manure and some agricultural residues (rice straw), to protect the environment.

- Producing unique high quality and economically valuable compost useful for desert and clay lands, and considered an essential component for organic farming.

- Creating new green jobs opportunities in the field of waste recycling
Steps

1- Organic waste collection (food, pigs & rice straw)

2- Threshing of rice straw

3/5- Stirring of the raw materials

6- Moisturizing of the raw compost

7- Compost screening

8- Final product (Organic Compost)
Composting Unit Outputs

- Safe and environmental disposal of at least 36,000 m³ per year from food waste, pigs and animals manure and rice straw.
- Protect the environment from solid waste pollution.
- Reducing air pollution (black Fog) and its serious environmental problems.
- Producing at least 15,000 m³ per year of organic high quality compost useful for desert and clay land, and is considered an essential component of organic agriculture.
- Producing economic valuable product (compost) that supports the national economy.
- Reducing the coast of hygienic disposal and dumping of organic waste.
- Creating direct (compost production) and indirect (waste collection, waste transfer, etc…) new green jobs opportunities in the field of waste recycling.
The project started in 2009
Total fund of the project is 2.2 million L.E.
It focuses on poverty alleviation and enhancement of the environment at Haram City area.

**Project Activities:**

- local campaigns for garbage source separation (organic and non organic)
- Planting and maintaining Green areas (Cultivating and Planting Vegetable Fields, Home gardens, …)
Solid Waste Source Separation Maintenance Of Green Areas at Haram City
The Association for the Protection of the Environment (APE)

Project Results
- Non polluted environment
- High percentage of recycling chances
- Job opportunities creation
- Obtaining a high quality of recycled by products like organic fertilizers.
The total fund is 1.5 million L.E.

The project aims at training and employing 310 young farmers on the latest organic techniques while receiving special training on organic farm.

A projected organic lab is built on 500 Feddans at the New Valley Governorate, with the aim of developing and producing bio-fertilizers and bio-pesticides.
Sawiris Foundation has recently joined the World Bank's Development Marketplace 2012 which will award a targeted number (at least 40 grants), and provide technical support to organizations with a demonstrated potential of creating jobs in the field of Agribusiness.

- Total fund of the project is 1.4 million $ and SFSD’s share amounts to $250,000 (approx. 1.5 million LE).
- Projects aims at private companies and civil society organizations in Upper Egypt governorates such as Assuit, Qena, Aswan and Menia as well as other less developed governorates.
The aim of the project is to develop and design effective strategies to the economic development challenges; with a focus on income generating activities and off-farm employment.

Total fund of the project is $4,708,209. SFSD’s share amounts to $1,305,293 (approx. 7.9 million L.E.)

Main Objectives & Activities:
1. Enhancing Agricultural Productivity and Activity
3. Improve and Stabilize Rural Household Food and Nutritional Security
4. Rural Employment Generation.
